We are hereby advising you that at the Twenty-third Session of the Toxicology Commission, held on NOV 22, 2002, and at the Working Group meeting, held on DEC 26, 2002, the subject of consideration were: the toxicological testing results for AGROSTEMIN (active ingredient: **alantoin**), a plant bio-regulator manufactured by “AGROSTEMIN”, Belgrade.

Based on the toxicological testing results, the Commission made the Decision that the above indicated product does not fall under the category of poisonous substances; that it cannot be classified into any group of poisons as defined in the Law on Manufacture and Trade in Poisonous Substances (“The Official Gazette of FR Yugoslavia”, Nos. 15/95 and 28/96); that it is to be included in the List of active ingredients and finished products which, on the basis of the relevant toxicological testing results, do not fall under any group of poisons.
